RE: Cable Tester Approval

Dear Mr. Pivonka:

ICC has evaluated the LANTEK 6/7, equipped with Category 6/5e RJ45 adapters, and is pleased to inform you that ICC approves the use of this equipment for Category 6 and 5e Cable Certification Testing in both Channel and Permanent Link configurations.

ICC does require the use of ICC Category 6 (ICPCS60000 series) patch cords for testing Category 6 Permanent Links and ICC Category 5e (ICPCS9000 series) patch cords for testing Category 5e Permanent Links. LANTEK 6/7 must be running firmware version 2.000 or later.

Testing in this manner will provide data that is suitable for use in the ICC 30 year Warranty Program.

Sincerely,

A handwritten signature in cursive script that reads "Donald F. Billow".

Donald F. Billow
